Abdominal aortic aneurysm in Chinese patients, 900
Abdominal aortic aneurysms, growth rate of, as measured by computed tomography, 530
Abdominal aortic aneurysms, screening for, 851
Abdominal aortic aneurysms, use of a ringed intraluminal graft in the operative management of, 825
Abdominal aortic aneurysms in Western Australia: descriptive epidemiology and patterns of rupture, 109
Abdominal aortic injury, isolated, following blunt trauma, seat-belt aorta, 239
Abdominal fascial wounds healing with secondary closure of the skin, increased breaking strength and collagen synthetic activity in, experimental wound healing, 777
Abdominal surgery, major, fine bore jejunostomy feeding following, a controlled randomized clinical trial, 458
Abdominal surgery, major, thromboembolic complications of, heparin with and without graded compression stockings in the prevention of, a randomized trial, 579
Abdominal surgical wound infection, prophylaxis of, a score system for evaluating random control clinical trials, 256
Abdominal wall defects in rats, experimental, carbon-fibre *versus* Marlex mesh in the repair of, 648
Abdominal wounds in infants and children, layered *versus* mass closure of, 739
Abdominoperineal resection and sphincter-saving resection for low rectal cancer, outcome, 595
Abscesses, acute, treatment by incision, curettage and primary suture without antibiotics: a controlled clinical trial, 66
Achalasia of the cardia in children, 341

Amoebic colitis, complicated, vascular occlusion in the pathogenesis of, evidence for an hypothesis, 123
Amputations, forefoot, failure of Doppler ankle pressure to predict healing of conservative, 888
Anal anastomosis, ileal 'J' pouch, S80
Anal and anorectal fistulae, re-routing of the track for the treatment of, 134
Anal incontinence, gracilis muscle transposition for, late results, S21
Anal lesions in Crohn's disease, S95
Anal sphincter, external, human, electrically evoked activity in, 38
Anastomoses, colonic, hypovolaemia and healing in, 831
Anastomoses, low colorectal staples or sutures for, a prospective randomized trial, 603
Anastomosis, single layer appositional, in the large bowel, continuing experience with, S104
Anastomosis suturing technique, modified, for arterial anastomoses with expanded PTFE, 498

Antibody markers, S42
Antibody screening, pre-operative, and selective ordering with an abbreviated crossmatch, increased efficiency of transfusion practice in routine surgery using, 102
Anti-reflux prosthesis, Angelchik, prospective study of, 520
Anti-reflux prosthesis, Angelchik, some reservations, 525
Antrum, an unusual acid, 12
Anus, epidermoid cancer of the, S97
Anus, squamous carcinoma of, local radiotherapy in the management of, 282
Anus, the results of surgery for epidermoid carcinoma of, 712
Aortic aneurysm, abdominal, in Chinese patients, 900
Aortic aneurysm contents, significance of positive bacterial cultures from, 440
Aortic aneurysms, abdominal, screening for, 851
Aortic aneurysms, abdominal, in Western Australia: descriptive epidemiology and patterns of rupture, 109
Aortic aneurysms, familial, serum concentrations of triglyceride, cholesterol, HDL-cholesterol and (VLDL + LDL)-cholesterol, 113
Aortic aneurysms, is tissue copper deficiency associated with, 352
Aortic graft – enteric fistulae, diagnosis by computed tomography, 72
Aortic surgery, assessment of myocardial function before, by radionuclide angiocardiography, 886
Aorto-enteric fistula caused by an atheromatous plaque penetrating a Dacron graft, 755
Aortofemoral bypass and the role of concomitant femorodistal reconstruction, 317
Aortohepatic Gore-tex graft, cannibalization by the duodenum, 101
Appendicectomy: assessment of stump invagination *versus* simple ligation: prospective, randomized trial, 971
Appendicectomy, metronidazole and Augmentin in the prevention of sepsis after, 571
